

## Letters of Support — Templates

### Template 1 — Academic Advisor / Expert (Short)

[Date]

To Whom It May Concern,

I am writing to express my strong support for Angelo Hurley and the proposed TGCR Witness Protocol project. The SAR Benchmark and preliminary LuminAI Genesis prototype represent an important step toward measurable, auditable safety metrics for interactive AI systems. I believe TGCR has significant potential to improve safety outcomes in healthcare and transportation and to contribute directly to standards work. I am available to provide technical advice and to serve as an advisor if requested.

Sincerely, [Name] [Title], [Institution]

### Template 2 — Industry Pilot Partner (Medium)

[Date]

To the NSF SBIR/STTR Review Panel,

We at [Organization] are excited to support the TGCR Witness Protocol project led by Angelo Hurley. We will provide access to anonymized testbeds and evaluation data, and we commit to a pilot integration if TGCR meets the  $W \geq 0.6$  threshold on our internal models. Our team will provide technical guidance and co-development resources during the pilot phase.

Sincerely, [Name] [Title], [Organization]

### Template 3 — Letter for Small Grants / Matching Funds

[Date]

To Whom It May Concern,

[Organization] pledges up to \$X in matching funds or in-kind compute credits to support the TGCR SAR test campaign pending award.

Sincerely, [Name]
