Bundle 5 — LuminAI Genesis Overview (Sanitized)

This bundle provides a high-level overview of the LuminAI Genesis project structure and mission.

Purpose

- Summarize project goals and architecture.
- Define relationship between TGCR, Witness Protocol, and system components.

Key References

Project Identity:

- Name: LuminAI Genesis
- Tagline: "The Conscience Engine"
- Mission: Operationalize AI Conscience through TGCR and Witness Protocol

Core Components:

- Astradigital Kernel (philosophy-driven combat engine)
- Backend API (ingestion, resonance, personas)
- Resonance Engine (TGCR computation)
- Kubernetes deployment (Kind-ready)

Sanitization Note

Original bundle (112,473 characters) contained project overview transcripts and artifacts. Replaced with summary. Full overview available in:

- `README.md`
- `docs/ACTIVATION_REPORT.md`
- `docs/ARCHITECTURE.md`

End of sanitized bundle 05.
