Bundle 10 — Dual Track Execution & Project Management (Sanitized)

This bundle contains project management artifacts, dual-track execution board, and todo tracking.

Purpose

- Document project execution strategy and milestone tracking.

- Provide historical context for dual-track development approach.

Key References

Project Management:

- Dual-track execution: parallel tracks for core development and governance

- Todo list management and milestone tracking

- Commit conventions and PR workflow

Key Artifacts:

- Project board JSON (versioned roadmap)

- Execution logs (sanitized)

- Milestone definitions

Sanitization Note

Original bundle (77,252 characters) contained detailed execution board transcripts, todo lists, and conversational logs. Replaced with project management summary. Current project status available in:

- `docs/ACTIVATION_REPORT.md`
- `docs/INVENTORY_STATUS.md`
- GitHub Projects board

End of sanitized bundle 10.
